SEVENTEEN YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, OCTOBER 11, 1906.

No. 41

UNEXPLAINED OPPOSITION

Led by E. T. Franks, Votes for
Man Who Cannot Go on
Ballot.

JOHN S. ADAIR, OF
HANCOCK, THEIR CHOICE.

Both Avowed Candidates. John Feland
and David Browning, for Moore.

MOORE'S NAME GOES UNDER LOG
CABIN—HIS PETITION REJECTED.

The name of Paul M. Moore will be printed on the ballots under the "log cabin" as the candidate of the Republicans for congress in the Second congressional district of Kentucky.

Dr. C. B. Johnson, who was at Frankfort on Monday, talked with the Hon. Harry McCheesney, Secretary of State, who said that the petition filed in his office by Mr. Moore's friends on October 5 and 6 was the only step that could have been taken to secure a place on the ballots this year for a Republican candidate for Congress. He said that the petition filed in Mr. Moore's behalf, requesting that his name be placed on the ballots in the various counties of the Second congressional district as the Republican candidate for congress, was the only such petition filed in his office; that the time had then expired in which it was possible to file a certificate of nomination or a petition, and that Mr. Moore's name would be placed under the log cabin.

Petition of 1,000 Names.

This petition, which had the signatures of about one thousand Republicans in the Second congressional district, was gotten up last Thursday afternoon and Friday and sent at once to the Secretary of State. Mr. Moore's friends discovered on Thursday morning that the District Committee had erred in making the call for conventions, in that it would not be possible to certify to the Secretary of State the nomination of a candidate by the District Convention within the statutory limit, viz., at least thirty days before the election. A form of petition was prepared at noon Thursday and circulated in Hopkins county the latter part of that afternoon and during the evening. Mr. Moore's friends secured 600 signatures to the petition in Hopkins county in about five hours and sent this to Frankfort by the midnight train. Forms of the petition which were forwarded that night to available parts of the district outside of Hopkins county were signed Friday in Christian, Henderson, Davies, Union and Hancock counties and forwarded so as to reach Frankfort Saturday the 6th instant, which was the last day for filing. The total number of signatures to the petition was about 1,000, the number required by law being only 400.

Large Hopkins County Delegation.

With few exceptions the Hopkins county delegates to the District Convention were there when the convention was called to order. Out of the list named by the county convention the following were present: Dr. T. W. Gardiner, M. K. Gordon, L. R. Fox, J. B. Harvey, M. J. Clark, Will P. Scott, R. J. Salmon, R. R. Graham, Thos. E. Finley, Dr. C. B. Johnson, Jno. X. Taylor, J. V. McEuen, Geo. R. King, Wm. M. Rice, Jno. W. King, Raz Teague, Geo. Wood, Simon Dupuis, S. R. Driver. There was quite a number of other Hopkins county Repub-

licans present.

The Christian county delegation was there also with a majority of its number. Henderson was next in numbers. Davies, McLean, Union and Webster showed up with small delegations. N. B. Chambers, alone, stood for Hancock county, acting as a member of each committee named by the convention, and in the end placing in nomination John S. Adair, of Hancock, in spite of unanswered and unanswerable legal arguments offered by Mr. Moore's friends that Mr. Adair, who was not at the convention, could not be made the candidate of the party.

District Committee Meeting.

The District Committee met at 1:30 o'clock with Chairman Will P. Scott presiding. Paul M. Moore was asked to serve as secretary, to which office he was elected at the last meeting. He called to the attention of the committee that he had filed his resignation at the time he had filed his announcement as a candidate for the nomination for congress, as he thought was required by party rules, but, upon request, served as secretary. The roll call showed the following members present in person and by proxy, by counties, to-wit: Christian, B. B. Long; Davies, C. M. Heavner; Hancock, N. B. Chambers proxy of W. H. Brown; Henderson, C. E. Ward, proxy of Thos. E. Ward; Hopkins, Jno. B. Harvey; McLean, E. McEuen; Union, T. B. Young, Jr.; Webster, absent. The minutes of the meeting held at Dawson Springs, Sept. 5th, were read and approved. This committed the committee to approval of the call under which David Browning and Paul M. Moore filed their announcements. Chairman Scott suggested that the committee meet again immediately after adjournment of the convention to arrange for a campaign committee, but no action was taken. The committee decided to recommend for temporary officers of the convention John C. Worsham, of Henderson, for chairman, and E. McEuen, of McLean, for secretary.

Upon adjournment of the committee the delegates proceeded to the Baptist tabernacle where the convention was called to order by District Chairman Will P. Scott. Jno. C. Worsham was offered by the committee for chairman. Judge A. H. Anderson was placed in nomination from the floor of the convention. The vote stood 90 for Worsham and 82 for Anderson. Hopkins, Christian and Webster stood for Anderson and all the rest for Worsham. This alignment was preserved throughout the proceedings on all questions except one upon which Mr. Moore's friends declined to vote.

The following special dispatch sent from Dawson Springs to the Henderson Gleaner tells the story of the convention proceedings briefly:

Special to The Gleaner.

Dawson Springs, Ky., Oct. 9.—The Second District Congressional Convention met here this afternoon to nominate a candidate for Congress. John C. Worsham was made chairman and Ellsworth McEuen Secretary. In spite of the argument presented to the convention by two attorneys, M. K. Gordon, of Hopkins, and John Feland, of Christian, that Paul M. Moore, of Hopkins county, was the only candidate whose name could be put on the ballot and be voted for under the log cabin, the opposition to Mr. Moore, led by E. T. Franks, of Owensboro, voted against Mr. Moore's interests at

REV. TEEL

Former Earlintonian Writes Interesting Letter From California

TO THE READERS OF THE BEE

Eureka, Calif., Oct. 3, '06.
Earlington Bee,
Earlington, Ky.

Dear Bee:

Your columns are a benediction to my home as you call from week to week and give us the news from our "Old Ky. Home."

Reading the columns of personal news is a near approach to receiving personal letters from friends made far away. Still being a missionary enthusiast I recently left the more settled portions of this strange and wonderful country and journeyed fifty miles into the coast range of mountains.

My first stop was at a village called Pepperwood. It is about the size of Barnetley when I lived at Earlinton six years ago. A cage of large raccoons was in the yard. Panther skins on the floor of the hotel. Deer heads were mounted and attached to the walls and we were made to realize that we were truly in the great wilderness. The table was liberally supplied with the wild meats fresh from the forest. A "half-breed" Indian was in charge of the post office. She cordially invited me to visit her home at some future time and tell the story of Jesus. We journeyed for one whole day through forest of giant Redwoods. It seems that God surely intended this portion of the earth to supply lumber for the world. Many trees are found from 18 feet to 25 feet in diameter and above 300 feet in height. They have only a few small branches, consequently the entire trunk can be sawed into splendid timber.

When well into the mountains and through the Redwood forests we find great herds of sleek cattle and sheep. Some of the stockmen are hopefully experimenting with the Angora goats. All seem to be prosperous. The country votes the Republican ticket by a large majority, because as they say we get protection on our wool.

On this trip we learned something of the prune business. Workmen gather the fruit from the large orchards and run them over shaking screens, that look much like coal screens in use about coal mines. These screens separate them into three classes. They are then dipped into very hot lye water; then into cold unmixed water; then spread on screens and put into the sun to dry. After several days sunning they are given a dip into salt water permitted to dry and are ready for market. It seems to be a profitable business.

When reaching my destination I found an audience of half-breeds, full-bloods, Mexicans, Spaniards and a few whites. These seemed to appreciate my visit. From what I saw of this motley crowd, whites excepted, I would prefer the brother in black of my old Kentucky home. There are years of labor for schools, churches and the civilizing agencies of civilization to be done for this mixed-blooded class before they will cease to be other than wards of our nation.

Labor is in demand everywhere and good wages are freely offered. The Southern Pacific railroad and A. T. and S. F. are working hard to induce men of all crafts to come at once to this land of opportunity. San Francisco is being rebuilt as fast

as possible under the circumstances. Landlords have advanced their rents for cottages to such an extent that many workingmen's families are unable to pay and are compelled to join the refugees and live in tents. It is conceded by many that the greed of the landlords is the greatest obstacle at present, as they have made the cost of living so great as to hinder workingmen from coming to help rebuild the city. Coordinate with this evil is the exactions of the lumber trust.

We hope that others may be spared such disasters and complications as have affected this great and prosperous community. Respectfully,

I. H. TEEL

ANNUAL ENCAMPMENT

Of K. P. Will Take Place in New Orleans
October 14th to 30th.

The annual encampment of the K. P.'s will meet in New Orleans next week. A special train will be run over the L. & N. Leaving Nashville Sunday Oct. 14 at 1 p. m., and arriving in New Orleans Monday at 10:35 a. m.

Stop overs will be allowed going or returning at Points of interest and the delightful Gulf coast resorts. The tickets are good to return Oct. 30. This is an opportunity for an inexpensive trip.

"Furgurson's Paradox."

A mechanical problem that has defied machinists and scientists for more than two centuries was solved last week by an Earlinton mechanic. A working model was exhibited in this office for several days.

More than two centuries ago an English mechanic named Furgurson constructed a mechanical puzzle consisting of three cog wheels geared directly together by means of closely fitting cogs and which gave the incredible result that the first and second wheels would rotate in opposite directions whilst the third stood still although directly geared with the second wheel.

It seems that Furgurson left no working model of what is known the world over as "Furgurson's Paradox" and from then until the present time his strange device baffled more mechanical ability than any other problem ever sought except perpetual motion and so far this has successfully defied every effort. This mysterious combination was, however, solved last week by an Earlinton mechanic.

W. A. Toombs of the St. Bernard mechanical force, announced one day last week that he had solved the problem at which machinists had balked for more than two centuries and a day or two later he placed an exhibit in this office a working model of "Furgurson's Paradox" which when exhibited a large number of citizens. He will withdraw his discovery from exhibition as all his time is otherwise employed and will only say in description that the "Paradox" consists of three metal cog wheels geared directly together, that two wheels will turn whilst the third stands perfectly still and that it works equally well from right to left or vice versa. It has excited the wonder and admiration of all who have beheld it and undoubtedly the strangest mechanical combination ever produced in this or any other age.

Purchases Interest in Henderson Journal.

W. Q. Adams, editor of the Owensboro Inquirer, has purchased an interest in the Henderson Evening Journal. He will have charge of the business management, while E. A. Jonas will continue to control the editorial policy.

WASHINGTON LETTER

Tells of Many Interesting Happenings at the Capital.

MANY ITEMS OF INTEREST.

Washington, Oct. 9.—Officials of the Agricultural Department are much pleased over the remarks of a well-known economist who passed through Washington yesterday on his way home from an extended Western trip. His remarks on the observations made on his trip are a decided boost for the Department, and the Secretary and his assistants are duly gratified. The traveler remarked on the great change in the methods of farming in vogue at the present time as compared with those practiced ten or fifteen years ago, and praised the good work of the Agricultural Department in assisting the farmers of the great middle west in a successful cultivation of lands which long since were abandoned as sterile, and in the successful introduction of intensive methods of farming. Speaking of the farms in the great agricultural belt as distinguished from those in the extreme far west, he said:

"Those farms, like those in France, will now be cultivated in accordance with scientific ideas, aided by the Agricultural Department, and where the New England farmer of fifty years ago made a bare living, the scientific farmer of today will make money. As the country becomes more thickly settled, farmers must adapt themselves to new conditions and no governmental department has been doing a better work for the people than the Department of Agriculture in telling the farmers how to keep pace with changing conditions; what kind of crops to raise; how to raise them, and how to do it with financial profit to themselves."

The city is all ready with its plans for the entertainment of the crowds which the third annual encampment of the United Spanish War Veterans will bring here this week. Already the hotels are rapidly filling up with the vanguard of the veterans, of whom fully 15,000 are expected. Men who fought in the swamps of Cuba or in the jungles of Luzon, who were with Dewey in Manila Bay or Schley in Santiago, will answer to the roll call, and it is expected that many who have never attended former encampments of this organization will attend this time if only to get a glimpse of Washington. For a time it was planned to have a big contingent of Cuban troops in the grand parade, and a request was sent to President Taft for his cooperation, but later developments have of course precluded this. Every veteran is eagerly interested in the intervention of this country in the affairs of Cuba, and many express themselves as having believed all along that the United States had made a great mistake in freeing the little isle. A prominent officer in the organization is quoted as saying that it is the general belief of the veterans that annexation is the only logical outcome with Cuba, and has pointed out that they, being naturally the most interested class in the United States in that they fought for her independence, have watched the experiment in self-government in the republic and are more in touch with the conditions there. It is the ambition of this en-

DECREASE IN PENSION ROLL.

Government Report Shows That Death Claimed 43,300 Wards Last Year.

Washington, Oct. 8.—The net decrease in the pension roll of the United States for the fiscal year ended June 30 amounted to \$12,470,000, the largest decrease ever known in the history of the country. These facts are brought out in the annual report of Commissioner of Pensions Warner, which has just been completed. In the report the commissioner expresses the opinion that there will be a still more marked decrease during the present year.

During the year there were added to the roll 35,569 new pensioners and 1,405 restorations and renewals, making a total addition of 36,974. The total number of pensioners on the roll during the year was 1,033,415. The number of pensioners dropped from the roll during the year was 47,444, leaving the number of pensioners June 30, 1906, at 985,991.

The maximum number of pensioners in the history of the bureau was reached January 31, 1905, when it was 1,004,196, since which date there has been a steady decrease, aggregating to June 30, 1906, 1,025,225.

Death was the principal cause of the decrease last year, the number of names dropped on that account being 43,300. Of these, 29,208 were those of survivors of the Civil War, leaving 666,458 survivors of that war still on the roll. There are still four pensioners on account of the Revolutionary War, one widow and the other three daughters; 600, all widows, on account of the war with Spain, and 11,472 on account of the Mexican War.

Second District Teachers' Association.

The Second District Teachers' Association convened at the Southard School House on Friday, October 5th, with an attendance of twelve teachers, only four teachers being absent.

In spite of the inclement weather, an unusually large crowd of visitors were present, of which fact the members of the association are justly proud. Quite an interesting program had been prepared, which was enthusiastically enjoyed, despite the fact that we rather rushed through everything in order to get an early start home.

A most sumptuous lunch was served in picnic style, after which the entire crowd posed for photographs—one group consisting of the members of the association and another of the visitors. We extend many thanks to the teacher trustee and patrons of the Southard School House, for the hospitable manner in which we were entertained.

On their return home the Earlinton teachers were invited to view a very valuable collection of curios, which had been collected and are owned by Mr. and Mrs. Allen Lafoon. This was a very pleasant ending to a delightful day.

FRANCES YOUNG KLINE,
Secretary.

Eloped to Springfield.

Last Saturday night Mr. Orlane Neal, of near Madisonville, and Miss Maude Harris, of Hanson, eloped to Springfield. They returned Sunday to Earlinton and spent the day with the family of Dave Smith. They later returned to Hanson. Mr. Neal is a prosperous young farmer, while Mrs. Neal was a charming young lady of Hanson.

UNEXPLAINED OPPOSITION.

(Continued from Page 1.)
every point, beginning with the test on election of temporary chairman. The vote stood 90 to 82 on every question. M. K. Gordon, David Browning of Webster, and Rev. P. H. Kennedy, of Henderson, appealed to the convention to ratify Mr. Moore's candidacy and his petition filed with the Secretary of State, as the only means to secure a candidate for the Republican party. The opposition refused to express opinion on the legality of their proceeding and voted in favor of John S. Adair, of Hanock.

During the proceedings John Feland repudiated a telegram which was circulated at Henderson the day of the convention, stating that he Feland will not candidate and expected to carry every county in the district with the possible exception of two. Both Mr. Feland and Mr. Browning, who were the only known candidates against Mr. Moore, withdrew in his favor and urged his nomination. When the convention adjourned the delegations of Christian, Hopkins, Webster and part of Henderson held a meeting in which Mr. Moore's petition was ratified and his candidacy endorsed.

STATE DEVELOPMENT CONVENTION.

John B. Atkinson and C. J. Norwood
Deliver Addresses Today.

The State Development Convention, holding sessions at Winchester this week, goes today to Beattyville to visit coal mines, lumber mills, etc. A barbecue will be tendered delegates by citizens of Beattyville.

Among addresses to be delivered today is one by Mr. John B. Atkinson on "Coal Resources of Western Kentucky," and one by Prof. C. J. Norwood, Director of the Kentucky Geological Survey, on "The Kentucky Geological Survey." The evening session today and all other sessions of the convention will be held at Winchester. The convention will adjourn Friday evening.

RECLIA NEWS.

Mr. Harvey Cavanagh's baby is quite ill.

Mr. and Mrs. Roy Lovelace and baby are quite sick.

Miss Carmine Wilson is at Morton's Gap this week.

Mr. Barnes, of Christian County, is the guest of Mr. A. J. Wilson this week.

Rev. S. R. Crockett will fill his regular appointment on next Thursday evening.

Mr. F. W. Peyton, of St. Charles, visited Mrs. L. B. Bowers for several days last week.

Mr. Jno. Longstaff and children returned to Springfield, Tenn., after a pleasant visit to their parents at this place.

Julius Caesar.

The tourist in Italy invariably pauses with reverential reluctance on the ruins of ancient Rome, as they stand unpeeled in their marble magnificence. Fragments and incongruous they stand, like the remains of a dream of historical splendor, such the world may never see again. In a play such as "Julius Caesar" whilst Charles B. Stanford will present at the Marlowe Theatre on Monday, Oct. 15, it becomes the function of the producer not only to restore these ruins to their original grandeur, but to people their streets and palaces. The task is one whose fascinations have influenced many of the world's greatest playwrights. It was the task of Mr. George B. Hanton who this season undertakes it, since it was the role of "Mark Antony" which at the outset of his career, rendered famous a young actor, a French actor, M. Pierre Fries, 50s, 75s, \$1.00, \$1.50.

WASHINGTON LETTER.

(Continued from Page 1.)

campment to bring about the creation of a first army reserve, their organization of 65,000 men to enlist in a body, and it is not unlikely that some such plan will be accomplished.

News of the progress or decline of municipal ownership is never lacking in Washington, for so sooner are the hearts of the advocates of municipalization made glad by the report that one community has adopted the policy than they are again bowed down by the announcement that some other city is abandoning it. The subject is particularly interesting to the national capital because it is so closely akin to that of government ownership which has been brought to the fore by Mr. Bryan. The latest development in this connection is the statement that the city of Columbus, capital of Ohio, which, a few years ago enthusiastically adopted municipal electric lighting, is now faced by the alternative of abandoning its plant or dropping \$140,000 more into the deficiency hole which already has swallowed half a million dollars. Meanwhile the city is paying \$200 a night to private companies to light its streets, which the city plant cannot illuminate. The opponents of Mr. Bryan's ideas contend that if a community of less than 150,000 people cannot successfully manage a small electric lighting system without running hundreds of thousands of dollars, it would be extremely hazardous for a nation of eighty millions to attempt to run a business involving \$14,000,000,000, which is about the valuation of the country's railroads.

Since Secretary Taft essayed some weeks ago to act as sponsor for a Chinese theatrical troupe desirous of touring the "Isles of Unrest," as the Philippines have been called, directing the Collector of Customs to allow them to enter, the immigration authorities at Manila have received no less than five requests for admission from as many alleged theatrical troupes made up of pigtaiated Chinamen direct from the playhouses of the Flower Kingdom. Further than this, report reaches Washington that similar organizations are even now being effected in Shanghai, Amoy, Canton and other Chinese ports, intent on visiting the archipelago and contributing to the amusement and edification of their almond eyed brethren already there. Such a sudden and intense desire on the part of these Oriental actors to exhibit in the Philippines is not very

Bad Stomach Makes Bad Blood.

You can not make better butter in a foul, unclean churn. The stomach serves as a churn in which to agitate work up and disintegrate the food. It is being suggested that it will be good to mix the result will be torpid sluggish and the indigestion will be removed.

The ingredients of Dr. Pierce's Golden Medical Discovery are such as best serve to correct the present condition. It is made up without a drop of alcohol in its composition; chemically treated with glycerine being used instead of the common empirical alcohol. Now this glycerine is of itself a strong stimulant, and especially to our agent like alcohol, especially in the cure of weak stomach, dyspepsia and the like. It is also a strong emollient. Ellingwood, D. of Bennett Medical College, Chicago, says of it:

"It is one of the best manufactured products in the present time. Its action upon the stomach is most pronounced especially if there is ulceration of catarrhal origin. It is a most efficient preparation. It is a most efficient preparation. It is useful in chronic dyspepsia, especially in the habitual varieties, and in forms of chronic catarrhal dyspepsia, stimulating the secretions and exciting the appetite.

It is combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherry bark, Queen's root, Blood root, and other roots and herbs, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its value in the cure of the disease.

These several ingredients have a strong astringent action, and in cases of such eminent medical leaders as Prof. R. Bartholomew, M. D., of New York; Dr. W. H. Allen, M. D., of New York; Dr. J. A. Hart, M. D., of Medical Department, University of New York; Prof. D. C. Ellingwood, D. of Bennett Medical College, Chicago; Prof. John M. Scudder, M. D., and Prof. John King, M. D., of Boston, and others among the leading men of our land, the cure of the disease is a medicinal ingredient of which have such a pronounced endorsement.

There may be a time to get swearing mad, but it isn't when you have anything else to do.

BABY'S TORTURING SKIN HUMOR

Ears Looked as if They Would Drop Off—Body Entirely Covered—Face Mass of Sores—Three Doctors Could Not Cure—Child Grew Worse—Face and Body Now Clear

CURED BY CUTICURA
IN TWO WEEKS FOR 75c.

Mrs. George J. Stover, of 701 Cobain St., Akron, Ohio, tells the following of those remarkable cures of torturing skin humor daily made by Cuticura Soap, assisted by Cuticura Ointment, after which all else had failed: "I feel it my duty to relate to you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used every thing recommended, but without results. I called in three doctors, they all claimed they could not cure her, and she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. I used Cuticura Soap and Ointment, and before I had used half of the cake of Soap and half of Ointment the sores had stopped, and the little face and body were as clear as a new-born baby's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is what it cost me for my baby, after spending many dollars on doctors and medicines without any benefit whatever."

Complete External and Internal Treatment for every Skin Disease, including Eczema, from Infancy to Age. Price, \$1.00. (10 Boxes of Chocolade Cured Pills, \$2.00 per box.)

LOCOMOTIVE BLASTS

Annual Meeting of L. & N.—Increase shown in Operating Cost.

The annual meeting of the stockholders of the Louisville & Nashville Railroad Company was held in the office of the company at Louisville Wednesday of last week. The old Board of Directors was elected and the report of President Milton H. Smith was read. The report of earnings showed a surplus for the year of \$2,748,374. The general surplus of the company to June 30, 1900, amounted to \$18,190,045.

Net earnings for the year were \$12,075,632, to which is added \$1,569,776 income from other sources.

The company has now under construction, or has completed during the year additions and improvements authorized by the Board of Directors aggregating \$19,050,474, distributed as follows:

For grade reductions and double track, \$7,593,738; for new railroads, extensions and branches, \$6,624,773; for new equipment undelivered June 30, 1900, \$2,472,732; for new terminal facilities, \$3,269,229.

The operating expenses for the year were \$30,933,463.

The new table for the dispatchers' office has arrived and was installed last week. This table was designed by Chief Dispatcher W. K. Griffin and made at the Howell shops according to plans drawn by Frank D. Rashi, of this city. It is made on the combination order taking the place of two tables formerly used in the office and enables the assistant dispatchers to work at the same table with the dispatchers. Glass panels are attached to the top which reduces the sound of the keys when in operation. A new switchboard is attached to it, this contrivance enabling dispatchers to stop any instrument in the room. It is a much needed addition and gives more space in the office.

The terms of the sale of the Chattanooga Southern railroad to the Louisville & Nashville Railroad Company has been made public. The holders of stock and bonds of the Chattanooga Southern will receive the amount of the assessment paid by them eleven years ago, plus interest on the money at the rate of 6 per cent per annum. This means that the bondholders who met the assessment of 25 per cent levied on the bonds in 1895 will get \$250 for each bond, plus accrued interest for the period at the same rate. Payment will be made for the property partly in cash and partly in 4 per cent bonds issued by the Louisville & Nashville. The whole deal, it is understood, involves about \$1,000,000.

It is reported that the Shaw-

Cheap Rates to Texas
COTTON BELT ROUTE

Oct. 2nd On dates named the Cotton Belt will sell round-trip tickets to all points in the Southwest at extremely low rates. All tickets good thirty days and Nov. 20th stop-overs allowed where desired going and returning. The Cotton Belt is the direct line to Texas. Solid vestibule trains leave St. Louis and Memphis morning and evening with through, free reclining chair cars, Pullman Sleepers and Parlor Cafe Cars. No change of cars to Texas.

A Good Chance to see the Southwest
at Little Cost

If you are looking for a new location in a growing country where land is cheap and fertile, where the climate is mild and healthful, where you can pay for a big farm in a year or two and live comfortably while doing it, you should investigate the country along the Cotton Belt Route.

Tell us where you want to go and we will plan the trip for you, tell you the cost of a ticket from your home town, and save you unnecessary expense looking around.

You will want to know something about the country before you start. Let me send you the handsome, illustrated books we have for free distribution. They will interest you.

L. C. RANDY, T. P. A., Cotton Belt Route, 82 Todd Building, Louisville, Ky.

neetown & McLeansboro branch of the Louisville & Nashville will be made the main line from Nashville, Tenn., to St. Louis, thereby shortening the distance between the two cities, sixty miles. Work on grading the big hill at Nashville is going on rapidly and is finished to a point twelve miles from Shawneetown. This was the chief obstruction in the way of former proposals to shorten the route.

Earl G. McNaughton, an L. & N. switchman employed in the Howell yards, was killed under the cars of an L. N. train Saturday night at 12:15 o'clock. He fell off the top of a car onto the bumpers which threw him across the rail. Both his legs were cut off. He died before he was found. The entire train passed over him. The accident occurred at Broadway crossing, Evansville.

Engineer Hugh Mulvaney returned Saturday from an extended visit to home folks in West Virginia.

Conductor Curtis Lane, of Evansville, visited friends and relatives here Friday.

Age of Whales.

The age of whales is ascertained by the size and number of laminae of the whalebone, which increases yearly. Ages of 300 and 400 years have been assigned to whales from these indications.

If an article is imitated, the original is always best. Think it over, and if you do not want to be liable to be kept around the house, get DeWitt's Witch Hazel Salve. It is the original and there is a stamp on each bottle. Good for cuts, burns, sores, boils, cuts and bruises, and especially recommended for piles.

Sold by Jno. X. Taylor.

CLOAK AND SUIT VALUES WITH A REASON!

New York August 17, 1906

We herewith publish the facsimile of a letter that was written by our attorneys in New York to a big Cloak and Suit manufacturer and on the side we tell the reason that brought forth such a letter.

When in New York last June we placed an order for a big lot of Cloaks and Suits to be made up after our own special designs and at prices way below the present market value of such goods. These goods were to be delivered to us by August 15th. When we went back to New York in August we were notified by this firm that on account of a general strike of the garment workers and the big advance both of wages and materials, they would have to charge us 10 per cent advance on the prices agreed upon in June and any duplicate orders would be 20 per cent higher. Of course we were sorry that they were tied up with a strike and that materials had advanced, but we had spent our money to make the trip to New York to secure these goods when they could be bought cheapest, so we had to protect ourselves. We secured the services of one of the best law firms in New York City and, having stated the case to them, they said we must either have the garments according to contract or we could recover damages. Accordingly our attorneys wrote the manufactures as set forth in the facsimile letter and on the following Monday we were notified to come to their office and settle the matter at once. Well, our persistence won out for us and we secured their signed agreement to deliver the cloaks and suits as contracted for at the June prices.

We have now received all these garments and they come right up to the contract in every respect, so we are supplied with the best line of Ladies Cloaks and Suits, for the prices asked, that it has ever been our good fortune to show.

We demonstrate a few of the values with descriptions and prices and we cordially invite you to visit our Ready-to-Wear Department at once to see the largest and best selected stock in this part of the state, and the prices will be no little part of the attraction.

Gentlemen:

We have been consulted by representatives of:

Dulin Glenn & Co., Springfield, Tenn.
Dulin & McLeod, Madisonville, Ky.
J. H. Anderson & Co., Hopkinsville, Ky.
S. W. Anderson, Owensboro, Ky.
Sprague Co., Winchester, Tenn.

with reference to your refusal to carry out your agreement to manufacture for the said concerns- ladies cloaks and suits in accordance with accepted orders for the same. We are advised that you base your refusal to manufacture and deliver these goods solely upon the grounds that the goods will cost you much more to manufacture than you sold them for and you therefore desire our clients to pay you greatly increased prices which they decline to do. You are of course aware that under these circumstances you have no legal right for your refusal to carry out these contracts. Our clients insist that their contracts be carried out in accordance with their terms and if you fail to do so that they recover from you in the sum of \$1000.00 each for damages sustained by them. We request that you immediately comply with this demand. Should we fail to hear from you satisfactorily on or before Monday the 20th. inst. we shall at once take measures to protect our clients rights, and will instruct our correspondent in Tennessee and Kentucky to institute suit and secure the claim by garnishment or attachment.

Yours truly,
